Lifetime Garden Products

We specialize in
beautiful and
carefree vinyl
garden decor for
discriminating
gardeners and busy
homeowners. Like
an inviting garden
path, please feel
free to wander the
Lifetime Garden
Products site to
learn more about
how to transform
your landscape
through the addition
of a charming
arched arbor or an
elegant white
gazebo.

From the intimate union of art and nature, of architecture and landscape, will be born the best gardening compositions.

Architectural details are important elements in creating beautiful and inviting exterior "rooms". The maintenance-free garden accessories featured in the Lifetime Garden Products collection are the starting points for good garden design. Combining timeless designs and space-age materials, Lifetime Garden decorative accents can be used as subtle backdrops on which to create a unique look or as a dramatic focal point for your chosen theme.

There is no rest for the gardener...but there is dessert.

As avid gardeners, we love seeing the results of our labors. Delicate petals, heady fragrances, juicy tomatoes are all worth the efforts we dedicate to our garden. However, we're not shy about saving time and money. A handy trowel and a better hoe are investments in our passion. Smart gardeners invest in things that last - like lifetime vinyl garden accents from Lifetime Garden Products.

Thanks to their durability and virtually maintenance-free performance, Lifetime Garden Products are guaranteed to outperform ordinary materials. Each carefully selected vinyl product in our collection represents the best quality available. We only offer the premium quality worthy of a wise and passionate gardener.

Lifetime Garden Arbors

An elegant white Lifetime

Garden Arbor can be used to

- Define a garden room.
- Create a focal point.
- Accent a pathway.
- Highlight a front walk.

Worry-Free

Lifetime Garden Arbors are durable and designed to last. A typical wood or an ordinary plastic arbor cannot compare. Why spend years cultivating your favorite rose or nurturing an English Ivy, only to discover that the arbor beneath is ready to fall apart?

You'll never have to worry about rusty nails or staples, wood splinters, termites or rot as Lifetime Garden Arbors are made from a heavy-duty top quality vinyl (the same material used for vinyl fencing).

Climbing Plants

The best reason to own an attractive Lifetime Garden Arbor is your favorite decorative vine or flowering climber. A Lifetime Garden Arbor provides a sturdy and long-lasting foundation perfect to show off lush foliage and lovely flowers. In order to choose the best Arbor for your favorite climber, you'll need to learn how the plant climbs and its growth habits.

Climbers can be divided into two different categories - vines with thin-stems and liana with woody stems. Examples of vines are clematis, scarlet runner beans, and ivy. Examples of liana are grapes, climbing roses and kiwi.

Vines can be either fast-growing annuals that last a single season or perennials that last multiple seasons. Either type can be beautiful on a Lifetime Garden Arbor. [CLICK HERE TO CONTINUE ARTICLE](#)

Lifetime Garden Picnic Tables & Benches

When your garden is finished, I
hope it will be more beautiful
than you anticipated, require
less care that you had
expected, and have cost only a
little more than you had
planned.

- Thomas D. Church, Gardens
are for People, 1955

Dining Alfresco

Places to dine and rest are considerations when creating an inviting landscape design. The addition of a picnic table adds a fun flare to a backyard environment. There is just something stimulating about eating outdoors. Our family-friendly vinyl picnic tables are the perfect spot for intimate gatherings or evening meals with the kids.

Resting Places

Whether your backyard is a small patio or forested acreage, a carefree Lifetime Garden Bench makes the perfect seat for mediating or entertaining. Many landscape designs include private "rooms" where the addition of a classic white bench would not only enhance the floral scheme but also provide a comfortable place to rest. By using a top quality carefree vinyl, you can enjoy your bench all year round.

The Ultimate Outdoor Room

The ultimate garden room is a gazebo. Gardeners have favored this freestanding retreat since Victorian times. Even if your gazebo is only hundreds of yards from your back door, it gives you a whole new perspective on your outdoor space. Establishing a personal space within a gazebo helps set a mood from which to enjoy your creation - your garden.

Selecting the Perfect Location

Before choosing a gazebo from Lifetime Garden Products, walk around your property, glancing back to the house. You might even take a chair with you to find the perfect view. Look out for distracting aspects (a view of the garbage cans for example) and avoid those. Consider which exposure you want. If your patio is in full sun during the peak of the day, you may prefer to seek out a shady spot for the gazebo. Give yourself ample room around the gazebo to grow plants, build a path to the doorway or to allow the breezes to flow through.

Not a Carpenter?

Building a gazebo from scratch can be overwhelming. That's why many companies now offer kits in a variety of materials. Material quality and assembly methods can vary greatly from manufacturer to manufacturer. For most types, assembly takes a weekend or two and requires basic tools and skills and the assistance of a helper.

Getting a Good Finished Product

Although you may invest thousands into a prefabricated wood gazebo kit, the finished quality may not be satisfactory. With a Lifetime Garden Gazebo, each piece is pre-cut at the factory from a uniform quality vinyl extrusion. Wood components may not be well sanded, hardware provided might not be weather-resistant and the gazebo may require annual maintenance to protect and preserve the wood.

Vinyl is Better

We've eliminated the quality and care issues by offering Lifetime Garden Gazebos made from top quality vinyl. The manufacturer uses a premium blend of ingredients to protect the vinyl against Mother Nature. Sun, rain, snow or insects won't harm a Lifetime Garden Gazebo.

A vinyl Lifetime Garden Gazebo eliminates virtually all maintenance. Its pristine clean white look stays beautiful for a lifetime. You'll never have to worry about rusting nails or staples that stain the wood and eventually fail. And the smooth surface of the vinyl rails means that splinters won't be a problem no matter how long it stands in the sun.
